

# Servant & Leader ... in the Catholic school

## A Ministerial Model for School Leadership Teams: Gift – Ministry – Mission

Every generation in the church faces unique challenges. The challenge of today's church is to give birth to the vision of collaborative ministry proclaimed by the Second Vatican Council. The church founded by Jesus Christ is a church of and on a mission. It is an apostolic church; an evangelising church. As *servant and leader* in a Catholic school you have been entrusted with this mission.

Leadership is essentially about relationships and *Servant & Leader* will be centred on the servant-style leadership of Jesus found in the gospels.

*Servant & Leader* will give you the chance to explore and develop the unique role you have in your faith community. It will challenge you to see things differently and offer a wealth of practical and creative ideas for developing your leadership each day of the year with students, parents and staff.

Paul Skippen is a member of the Order of Saint Augustine who has been working in leadership formation in schools in Australia and New Zealand for over twenty years. He has developed a timely program that provides school administrators with the skills for being an effective servant and leader. Paul is passionate about authentic leadership in Catholic schools and he has put much time and energy into this vital ministry within the Church.
